

TRAGIC TRAJECTORY

Presented by MESA/ISHRAE

OVERVIEW

The enemy is just around the corner and a frail wall is all that stands in the middle. Is your projectile judgement strong enough to get the enemy before they sink your ship? MESA brings to you, a fun-to-watch, more fun to play event, where you get a chance to throw stuff at your enemies and loot their treasure.

Rules

- The game arena consists of one solid wall, one ball and two 3×3 grids on either side of the wall.
- Two teams of 3 players each can play at a time.
- Each of the 6 players will be asked to pick a card. The number on the card will indicate the location on the grid where the player has to stand. This way 3 players of same team will be standing on either side of the wall and the two teams cannot see each other due to the wall.
- The game starts when one of the 6 players gets the ball.
- This player has to throw the ball over the wall such that it hits one of the opponents. If the ball hits the opponent he is eliminated.
- After the first turn is complete the ball passes to one of the players of the other team. The step 5 and 6 are repeated again.
- This way the game goes on till all players in one of the teams are eliminated.

Note : FOR THE FIRST TURN ONLY, if the player hits an opponent, the latter gets eliminated but if the player misses then he gets eliminated.
